

ONLINE
EDUCA
BERLIN

13th International Conference on Technology Supported Learning & Training
Hotel InterContinental Berlin • November 28 – 30, 2007

CONFERENCE PROGRAMME

Please see www.online-educa.com/pre-conference for Pre-Conference Workshops and Forums taking place on November 28

Platinum Sponsor:

Gold Sponsor:

Silver Sponsors:

Conference Sponsors:

Please note that the agenda for Online Educa Berlin is subject to change (9 November 2007)

Session Codes & Themes

COR = E-Learning in the Corporate and Company Context

UNI = Learning Futures in Higher Education

SCH = Classroom Learning and ICT

PUB = Public and Professional E-Learning

LIF = Lifelong and Informal Learning

DES = Designing Teaching and Learning with Digital Media and Tools

GAM = Games and Simulations in Support of Learning

MOB = M-Learning: Learning in the Hands of the Learner

WEB = Web 2.0 linked to Education 2.0

VID = Video in Support of Online Learning

QUA = Quality and E-Learning

EVA = Assessment and Evaluation

ACC = Online Learning, Equality and Accessibility

RES = The Application of Research Outcomes in the TEL Field

POL = E-Learning Policy and Practice

KES = Knowledge Exchange Sessions

GEN = General Sessions

BPS = Best Practice Sessions

DEM = Demonstration Sessions

NET = Networking Sessions

Opening Plenary

The Opening Plenary for Online Educa Berlin 2007 will be chaired by **Dr. Harold Elletson**, The New Security Foundation, UK and will feature key-note presentations by:

- **Hon. Elizabeth Ohene**, Minister of State, Ministry of Education, Science & Sports, Ghana
- **Prof. Sugata Mitra**, Newcastle University, UK & Chief Scientist Emeritus, NIIT Ltd., India
The "Hole in the Wall" Experiments: Self-Organising Systems in Primary Education
- **Patricia Ceysens**, Flemish Minister for Economy, Enterprise, Science, Innovation and Foreign Trade, Belgium
The Importance of E-Skills as a Mechanism to Boost Competitiveness and Increase Innovation
- **Andrew Keen**, USA
The Cult of the Amateur: How Today's Internet is Killing Truth

Creating M-Learning Content	Best Practice Showcase	Emerging Markets in E-Learning	Transforming Learning Outcomes into Knowledge Assets
Philippe Seynaeve , Federal Public Service (FPS) Health, Food Chain Safety and Environment, Belgium	Annemie Boonen , ELIG & EuroPACE izvz, Belgium	Prof. Tim Unwin , Royal Holloway, University of London, UK	Dr. Nikitas Kastis , MENON Network & Lambrakis Research Foundation, Greece
Dr. Christopher Dennett , University of Wolverhampton, UK <i>Large-Scale Content and Support for the Mobile Generation via Bluetooth</i> Dawn Leeder , RLO-CETL, University of Cambridge, UK & Ellen Wagner , Adobe Systems Inc., USA <i>Devices and Desires: Opportunities, Barriers and Solutions for Flash-Enabled M-Learning</i> Dr. Mark Riordan , Institute of Art, Design and Technology, Ireland <i>M-Learning and Podcasting as an Assistive Technology</i>	Jim Ellis , The Open University, UK <i>Multimedia Sequence Builder - A DVD Component from the Open University Course 'Understanding Media'</i> Dr. Zelalem Hailu Gebrechistos , Addis Ababa University, Ethiopia <i>Post-Graduate Programme in Hydrodynamics</i> Cristina Larriba , IBM, Spain <i>Everyday English</i> Sylwia Twardo , Warsaw University, Poland <i>English B2</i>	In a dynamic debate their experiences will be contrasted with those from companies with an interest in emerging markets and developing countries. Participants should leave the session with a list of lessons learned that may smooth their path to accessing the right audience, the right technologies and the right content in emerging markets. Speakers: Charles Senkondo , Tanzania Institute of Finance Management, Tanzania Milagrito Montenegro , Pontificia Universidad Catolica del Peru, Peru Ali Salman , BRAC University, Bangladesh Dr. Ilya Kuperman , Modern University of Humanities, Russia Dr. Pimrumpai Premsmi , Chulalongkorn University, Thailand Yao Kouassi , Centre d'Education a Distance, Ivory Coast	Prof. Robert-Jan Simons , Utrecht University, The Netherlands <i>Learning Through Reflection and Feedback using ICT Support</i> Albert Calvet , CV&A Consulting, Spain <i>Knowledge Versus Information: Implications for Learning</i>

Knowledge Exchange Sessions

16:30 – 17:30

These 60 minute long sessions are intended to be informal and informative and to facilitate networking amongst participants. The emphasis is on the exchange of knowledge and experience.

Each Knowledge Exchange session will be allocated a round table which seats up to 10 people. If you would like to take part, please sign-up on the relevant form available on the public notice boards in the conference area from Wednesday November 28th.

Participation will be limited to the first 9 who sign up for each.

Title	E-Learning in Latin America	Experiences and Outcomes of Joint European Study Programme Projects	The Future of E-Training Technologies in Al-Quds Open University	How Can a New Generation of Virtual Campuses Lead to Virtual Mobility	ICT4D (Information and Communication Technologies for Development)	Virtual Worlds - A Waste of Time?	Demand Led Didactics	Future Challenges for Online Education	Knowledge Management ICT in Education	Implementing and Scaling Up a Large Scale Technology Innovation
Leader	Nicolás Hellers, ICWE, Argentina	Prof. Michael E. Auer, Carinthia Tech Institute, Austria	Mahmoud Hawamdeh, Al-Quds Open University, Palestinian Authority	Helena Bijmens, EuroPACE ivzw, Belgium	Prof. Tim Unwin, Royal Holloway, University of London, UK	David Richardson, Högskolan i Kalmar, Sweden	John Gray, PlanAR Research, UK	Per Westman NSHU/The Swedish Learning Space, Sweden	Herman Schimmel, Sheffield Hallam University, UK	Dr. Harouna Ba, EDC Center for Children & Technology, USA
Description	This session will focus on the following topics: - The current state of e-learning in Latin America - Tips on regional trends and developments - Opportunities for collaboration with other organisations in, for example, outsourcing, accessing government support, funding opportunities	Currently, higher education in general and engineering education in particular are undergoing significant structural changes worldwide. There are a lot of joint development projects funded by the EU, most of them within the SOCRATES programme. But there can be a few problems in the implementation of such joint European curricula.	E-Training can be described as web-based training where it consists of modularised training courses, available over the web, anytime of the day or night, anywhere you have access to the Internet. The purpose of this session is to highlight and discuss the use, implementation and the future of e-electronic training in Al-Quds Open University.	Participants will share experiences about questions like: - Do we need to redefine the Virtual Campus concept? - Can a Virtual Campus lead to Virtual Mobility between multiple campuses, university and industry and exchange students and home or host institution - How can networks support Virtual Campus initiatives?	An opportunity to discuss the ways in which the themes and experiences of Online Educa Berlin can be used in helping poor and marginalised communities address their learning needs.	Virtual worlds, like Second Life, are making their appearance as educational tools. Can they be used for serious educational purposes, or are they just a time-wasting diversion from the serious business of on-line learning?	What are the implications for the pedagogic, business and technical infrastructure of universities in which students/employers are at the centre of the education ecosystem as of a genuinely 'demand-led' system? My research, through London University Institute of Education, explores the knowledge and change management implications of e-enabling colleges to respond.	The Swedish learning space aims to discuss future challenges for teaching and learning. We use five cases as a starting point for the discussion. In this session we will discuss the responses on the cases that we have received through our blog and IRL during the first day of OEB. http://swedishlearning.space.wordpress.com/	This session is based on research into how teachers at a Dutch university create and share their knowledge about ICT in education. Discussion topics will include networking, social networking, knowledge management, ICT, Education. Join this session if you would like to share experience in this area.	The EDC Center for Children & Technology is conducting a study of a large-scale education technology innovation in Mississippi and Louisiana. We propose to share our evaluation findings, and engage participants in a lively discussion about issues of implementation, scalability, and sustainability.

Plenary Session

The Role of Social Networking and other Web 2.0 Applications in Today's Learning Environment

Social Networking is seen by many as providing a rich context for learning, whether this is in terms of the informal learning that takes place amongst colleagues in the workplace, or the opportunities that arise for mentoring and coaching across geographical and other boundaries. This plenary session will explore the nature and sustainability of these networks along with the possible impact of other Web 2.0 applications like Wikis and Folksonomies that allow for collaboration and sharing amongst users. It will also explore the impact of Virtual Worlds like Second Life, Entropia Universe and Active Worlds.

This plenary session will be chaired by **Fred de Vries**, UNHCR, Switzerland and will feature key-note presentations by:

- **Dr. Sian Bayne**, Lecturer and Programme Director, MSc in E-learning, School of Education, University of Edinburgh, UK
A Strange Space: Higher Education Teaching in Second Life
- **Dr. Bruno Lanvin**, Executive Director, INSEAD/eLab, France
Knowledge 2.0? Social Networks and the Global Sourcing of Talent
- **Roger Larsen**, Founder and Managing Director, Fronter, Norway
The Collaborative Working Environment: Next Generation Learning Platform, Including Web 2.0

Plenary Session 9:30 – 11:00	Plenary Session 9:30 – 11:00
<p>The Changing Nature of Learning in Today's Company</p>	<p>The Role of Technology in Supporting Cradle to Grave Learning</p>
<p>Whatever the current trend, rapid e-learning, mobile e-learning, immersive learning, the questions remain the same. How to find the right tools, applications and services to increase the knowledge capital of today's companies and improve their performance in our highly competitive world.</p> <p>This session brings together Chief Learning Officers from leading companies with leading suppliers aimed at teasing out how best to use technology to increase knowledge capital in today's companies.</p> <p>This session will be chaired by Kevin Wheeler, Global Learning Resources, Inc., USA and will feature key-note presentations by:</p> <ul style="list-style-type: none"> • Staffan Ivarsson, Deputy Director, Human Resources, Swedbank, Sweden <i>Competence to the Business - How Can We Learn More, Faster and Cheaper?</i> • Eric de Dreuzy, Director eLearning, Air France, France <i>E-Learning and Knowledge Management: How to Reconcile Coherence and Variety of Solutions, Efficiency and Reactivity?</i> • Donald Clark, Director of Strategy, LINE Communications, UK <i>Do We Have 19th Century Practice in 21st Century Learning?</i> 	<p>Access to learning resources and experiences has been fundamentally changed by the increasingly pervasive nature of ICT. Opportunities for lifelong learning abound and never have there been so many organisations actively promoting learning as there are today. But how are schools and universities adapting to these changes? are traditional learning suppliers like schools, universities and colleges open to the possibilities afforded by ICT? and at the same time, how are we ensuring that insight, good judgement and wisdom are being nourished in the hectic lives of students, pupils and learners?</p> <p>This session will be chaired by Dr. Leonard A. Plugge, Scientific Technical Council, SURF, The Netherlands and will feature key-note presentations by:</p> <ul style="list-style-type: none"> • Prof. Roberto Carneiro, former Portuguese Minister of Education & Dean of the Institute for Distance Learning at the Portuguese Catholic University, Portugal <i>Lifelong Learning for Meaning</i> • Ben J.P. Janssen, Secretary to the Dutch National Initiative 'Long Live Learning!', The Netherlands <i>A Quantum Leap in Lifelong Learning in The Netherlands; the Need for a National Open and Flexible Lifelong Learners' Infrastructure</i> • Brian Durrant, Chief Executive, London Grid for Learning Trust, UK <i>Transforming Learning and Life Chances: What's the Critical Path?</i> • Nancy Knowlton, Chief Executive Officer and Co-Founder, SMART Technologies, Canada <i>Making the Grade in the 21st Century: E-Learning in a Knowledge-Based World</i>
