

March 19-20, 2009. The European Commission organised a two-days meeting in Brussels for representatives of Tempus Joint Projects and Structural Measures Projects selected after the 28 April 2008 deadline.

The overall aim of this meeting was to address practical issues such as grant agreement management (rules and reporting requirements). The meeting was also an excellent opportunity for new and experienced practitioners to exchange knowledge and to network with other projects in a similar subject area or partner country.

You will soon find more information on their web site: <http://tempus.teamwork.fr>
